

2025 Urban Forestry Workshop

Invasive Species Plant Identification and Management

The 2025 Urban Forestry Workshop: Invasive Species Plant Identification and Management will be held this fall in six locations throughout the State. Each location will include morning classroom instruction followed by hands-on field demonstrations in the afternoon. The cost of the workshop is \$40*.

Topics include:

- Identification of common invasive plants in your area
- The most recent information on effective invasive plant removal
- Post removal management techniques to minimize regrowth

~~\$70~~ **\$40***
per person
includes lunch

The workshop dates and locations are:

- September 10 - Waukesha Area
- September 23 - Eau Claire Area
- September 24 - Wausau Area
- October 1 - Green Bay Area
- October 2 - Oshkosh Area
- October 7 - Fitchburg Area

* No refunds. The regular price of the workshop is \$70; the price reduction of \$30 is due to a USDA Urban Forestry Grant awarded to the Wisconsin Department of Natural Resources.

Space is limited at each location!
