

Extension Waukesha County 4-H Project Night at the Expo is open to All Enrolled 4-H members!

Wednesday, October 22, 2025

Time: Session 1: 5:30–6:15 & Session 2: 6:30–7:15 pm

Location: Waukesha County Expo Center – Forum – North Hall

1000 Northview Rd, Waukesha, WI 53188

Friendship Bracelets

Youth will be taught how to make friendship bracelets and will have hands on learning about different weaving styles. All supplies will be available for youth and will leave with their own bracelets and some to give away to friends too.

Session 1: (any age) parent support may be needed

Session 2: (any age) parent support may be needed

Photography

Attend this session with Troy Freund, of Mike Crivello's Cameras, to learn more about what a professional portrait photographer does. Troy will show samples of his work, from 20+ years of being a professional photographer in Milwaukee, and will work with participants to create portraits of their own, of each other! Photographers of all experience levels are welcome! Youth need to have access to a CHARGED camera or phone!

Session 1: (K–5th grade) parent support may be needed

Session 2: (6th grade+)

Quilting

Youth will learn about possible quilting projects, get ideas, support or guidance on a quilting project they may already have chosen or learn how to start a project!

Youth do need a sewing machine, please bring it along. A few donated machines may be available for use at Project Night. (Session 1 & 2: All Ages with parent support)

Wildlife & Habitats

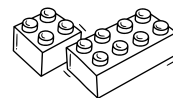

Join us for an engaging wildlife and habitat learning session where participants will explore the rich diversity of local ecosystems and the animals that call them home. This session is perfect for nature enthusiasts of all ages who want to learn how to help protect and preserve wildlife habitats.

Session 1: (4th–8th grade)

Session 2: (K–3rd grade)

LEGO

Youth will participate in this individual Lego build challenge. Youth will be tasked to unleash their creativity in this challenge & describe your build format. They will be guided to create their own Lego build, connect with others, and follow step by step directions from a Jr. Project Leader to make an epic Lego build!

(Session 1: K–2)

(Session 2: 3rd grade+)* Jr. Project Leader: Aaditya

Robotics

Youth will get hands-on experience with basic Lego robotics components, learn how robots move and respond to commands, and start building your very own team project. No experience needed—just bring your enthusiasm and a willingness to learn.

Session 2: (ages 6–19, parent support encouraged)

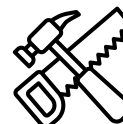

Self Assessments & Careers

Do you ever wonder what you will be when you grow up? Do you know what your "Spark" is? In this session, we will explore more options in College and Career Readiness by learning leadership styles, life skills and explore possible careers.

Session 2: (Ideal for 5th grade+)

Woodworking

Get ready to build, create, and learn valuable hands-on skills. Youth will learn the basics of woodworking safety, how to use essential tools, and begin working on your first small project. Whether you're brand new or have some experience, this is a great way to develop craftsmanship, creativity, and confidence.

(Session 1 & 2: All Ages with parent support)

ANY Enrolled 4-H member may sign up for Project Night!

Please contact Sara with questions: (262)-548-7774, stomjanovich@wisc.edu
