

UW-MADISON EXTENSION 2026 URBAN FORESTRY WORKSHOP TREE RESILIENCE: PLANTING, PRUNING, AND CARE

ABOUT THE WORKSHOP

Join us to learn about tree biology and the standards of care that have been developed by the American National Standards Institute (ANSI) to help get trees off to a great start, led by Rich Hauer, Director of Urban Forestry at Eocene Environmental Group. We will build on the biology to discuss tree pruning and planting methods to optimize tree health.

This daylong workshop begins with a morning classroom session covering:

- **Biological Basis of Tree Action:** Terms, Technology and Standards of Care
- **Best Management Practices:** Tree Planting, Growth and Longevity
- **Proper Tree Pruning**

After lunch, we head outside and put what you learned in the morning into practice. A planting demonstration will be followed by steps for structural pruning and then we'll talk about site evaluation and safety. We will finish the day by looking at a variety of tree samples to illustrate how trees respond to human and natural influences.

COST, LOCATIONS, AND REGISTRATION LINKS

The cost of the workshop is \$70 per person and includes lunch. The workshop will be held in September at four locations across the State. Choose your location and register at the link below:

September 21 - DeForest, Dane County - Register at <https://go.wisc.edu/2hvk58>

September 22 - Waukesha, Waukesha County - Register at <https://go.wisc.edu/1i0e09>

September 23 - Black River Falls, Jackson County - Register at <https://go.wisc.edu/2hvk58>

September 24 - New London, Outagamie County - Register at <https://go.wisc.edu/2hvk58>

CEUs Available!
